## Midleton Barry Crockett Legacy

32.50

This Whiskey was created to commemorate the career of the former master distiller who retired in 2013 after 47 years at the distillery. Barry himself helped to formulate this single pot still and it is highly regarded as one of the best in the range. The pot still elements used are drawn from light, medium and heavy styles and the spirit is mostly matured in 1st fill bourbon casks with a small amount going into virgin American oak. There is no age statement but some of the whiskey used is very old (around 25 years).

## Jameson Bow Street 18 Year Old

30

On the Nose: Aromatic oils with a touch of wood and spicy toffee.  
Flavour: Wonderfully mellow and smooth, a mouthful of complex flavours –toffee, spice, hints of wood and leather, gentle sherry nuttiness and vanilla. Finish: A long lingering finish carries the theme of the wood, spice and toffee right through to the end.

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million (19.5% of the population).

There are a number of reasons why the number of people aged 65 and over has increased. One of the main reasons is that people are living longer. The life expectancy at birth in the UK is now 78 years for men and 82 years for women. This is an increase of 10 years since 1950.

Another reason is that people are having children later in life. This means that there are more people in the 65-74 age group than there were in the 1950s. This is because people who were born in the 1950s are now in the 65-74 age group.

There are also a number of reasons why the number of people aged 65 and over is expected to increase in the future. One of the main reasons is that people are living even longer.
